

We are very pleased to let you know that the Memorandum of Settlement was ratified at all Local Unions by a Provincial average of 94%.

We would also like to let you know and are pleased to announce that the Ontario Hospital Association (OHA) has notified CUPE/OCHU that they have also ratified the Memorandum of Settlement.

We would like to thank all the members who took part in the negotiation process, from the sticker day campaign to the information rally, and the ratification vote, without your participation this would not have been possible.

In Solidarity,

Local 786
